1. Introduction

Decentralized Crypto Token (DCTO) is a decentralized open source cryptocurrency that is based on the Ethereum Blockchain.

Smart Contract Address: 0x9ccbd05d4d25c745d49f5e6bf17e09113eb4c769

For the first 3 years we will perform as an ERC-20 token with the main priority of listing with high volume, quality exchanges.

Long term goals include building and migrating to our own blockchain with high privacy and untraceable transactions. The swap plan will be a 1:1 token to coin migration.

After migration, we will make our currency available for payments via a revolutionary cryptocurrency debit card.

Along with the debit card, there will be a second major task that will be in development. This will be announced in the Roadmap update in Q2 of 2020.

3. Airdrops and Rewards Program

Our airdrops will be at regular intervals, the announcements can be found in our chats and on social media.

Initially, new community members at our chat will get a welcome present of 1000 DCTO per person one-time.

Requirements to participate in these airdrops are to join our Telegram chat and send one of our admins your Ethereum wallet address and a link to a legit Twitter or Facebook account that shows that you follow us on Social Media.

The community rewards are rewards for active community members, we came up with something for everybody. Telegram chat, social media and YouTube rewards.

Telegram Chat Rewards

We will choose 20 active members each month whom of which will receive a small bonus airdrop.

Twitter Community Rewards

Twitter rewards will be dropped to the most active followers. Depending on likes, comments and retweets. This we be chosen randomly at our discretion.

YouTube Rewards Program

Make a video about our project and send the link to one of our Telegram group admins.

We will reward every video over 2 minutes within 48 hours.

Other Rules for Professional YouTuber

Your videos have to be at least 10 minutes long and we will be rewarded depending on quality, views and subscribers of your channel.

Ratings and rewards will be sent 1 week after publication.

5. Targets and Times

5.1 Exchanges

Most exchanges that we pursue should come together within 2 – 2.5 years. These will include some high-volume larger exchanges.

We are seeking quality exchange services with whom we feel comfortable working together.

5.2 A Stable Decentralized Untraceable Secure Cryptocurrency

To create a good decentralized cryptocurrency requires a lot of time, tokens must be distributed slowly and be in circulation for a long time to prevent price manipulation from whales.

All together it will take 4 years to make it to 85% decentralized. After 5 years, 90% will be in circulation, after 6 years it will be at 93%.

5.3 Developing a Secure Blockchain

Developing a new secure blockchain in mid 2020 will also require time, expenses and additional staff.

E-Commerce integration is also a part of the project, we plan to use reserves and also marketing funds for these partnerships.

Once our coin is ready, holders can change their tokens 1 to 1 to our new coins. We plan to launch our coin after 3 years.

5.4 Payments with our Cryptocurrency via Debit Card

After the migration to the new blockchain, DCTO will begin to research the design and development of a crypto based debit card.

Laws are not clear throughout the world currently and the market needs positive regulation in this field.

The future will show us which company does the best work. Then we will look for a partnership in this direction. Target is within 4 years.

6. Roadmap

The roadmap begins with Q4 of 2018 and will include the initial airdrops, launch of DCTO website, the token presale and the listing on the preliminary exchanges.

Terms and Conditions

GENERAL INFORMATION

Decentralized Crypto Token does not have the legal qualification of a security, DCTO tokens are not shares and do not give any rights to participate in general meetings of the team. To own tokens does not give any rights to dividends or interests. The team will continue their work as it is planned. The sale of Decentralized Crypto Token (DCTO) is final and non-refundable.

Decentralized Crypto Token is a long-term project and will be centralized in the first years. To create a non-manipulated decentralized cryptocurrency needs time and a solid trusted team. Team members will receive regular intervals of small rewards for participation in the project. Our community manager is voluntary. Team members are from across the globe. Countries represented include Germany, Switzerland, Spain and Saudi Arabia. The company will be registered in the United Kingdom in Q4 of 2018. Registration will be updated soon.
